Network cable Tester

- Check wire map of network cable
(for example:open,short and other wrong wire connecting)
- Track the network cable
- Measure the length of network cable
- Big screen with display test result
- if you need the function for check coaxial cable,
when you order,please note you need additional 2pcs
RJ45 to coaxial adaptor

LW-4066

Network cable Tester

- One person enough to complete cable continuity check.
- Check wiring error in RJ45 Lan Cable.
- Such as open circuit, short Circuit, jumper wire, reverse connection cross - talk interference.
- Measure cable length and determine the distance of open circuit and short circuit.
- Simple and easy use.
- Big screen to display test result clear.
- Measure length of Lan cable Only with one port of cable tester

LW-4104

Network Cable Tester

Function Of Tester:

- Test The Length Of Lan Cable
- Check Wiring Error Of Patch Cord
- Detect The Connecting Lan Ports Form One End To The Other End(the Max.distance Between Two Ports:300m)

LW-4254

Cable Tracker With PoE Function

- Check wire map of network cable
(for example:open,short and wrong wire connecting)
- Track the network and telephone cable
- With PoE function

LW-4087

Cable tracker

- Judge continuity of the cables or wires.
- Track the cables or wires, and diagnose the break point.
- Receive the tone signal on the cables or wires(telephone line)
- Identify the state in the working telephone line(clear, ring, busy)
- Send a single solid tone or a dual alternating tone to the object cables or wires.
